

Discovering West Edmonton Early Years Coalition Presents:

An Awesome Training Opportunity for the Early Year's Community

With, Dr. Judy Cameron, Ph.D. (Developer of the Brain Architecture Game) Professor of Psychiatry; Director of *Pitt Science Outreach*; Director of *Working for Kids: Building Skills*, University of Pittsburgh

Working for Kids-Coach Training (*Games designed to support brain development 0 to 8*)

Thursday October 3rd 9:00am to 5:00pm @ the Orange Hub 100th Ave and 156th Street (formerly the McEwan University Jasper Place campus)

Dr. Cameron a renowned neuroscientist, along with her University of Pittsburgh team, have created over **two hundred games designed to enhance brain development in children**. This highly researched training is specifically designed for adults and professionals who work with children in their early years. Participants will learn how to teach others how to access and utilize an amazing toolbox of games that have been designed to help enhance complex reasoning, strengthen decision making and increase self-regulation in children.

- Price is an amazing **\$ 125.00** per participant (*Due to our arrangement with Dr. Cameron we are able to provide training valued at approximately \$ 1200.00 for this reduced price.*)
- Discovering West Edmonton Coalition will also be subsidizing each registration by **\$ 250.00**. Each organization will also acquire access to Working for Kids program resources (*a \$ 50.00 value included in the fee*)
- Commitment to this training will require pre-training involvement (about 4 hours of reading and study) as the regular training commitment is 14 hours of workshop and we are condensing this training to 8 hours
